Ingredients 5 · SERVES 2

- [ ] 2 **ripe bananas**, frozen in thirds
- [ ] 1–2 tbsp **unsweetened almond milk** (optional; or any milk)
- [ ] 1–2 tsp **maple syrup** (or honey or monk fruit)
- [ ] a pinch of **sea salt**
- [ ] a dash of **vanilla extract**

Contains: Tree nuts. Check labels on stock, sauces and spice mixes.

Method TIMES = THE MOMENT IN THE VIDEO

1. Peel ripe, brown-spotted bananas, cut them into thirds and freeze on a lined tray for 4–6 hours, until solid, then move them to a freezer bag. 0:49
2. Take the bananas out a couple of minutes before using. Put them in a food processor (or blender) with 1 tbsp of milk, if using. 1:39
3. Pulse, scraping down the sides now and then, until the banana turns from crumbly to thick and creamy like soft serve. Add a second tbsp of milk only if needed. 2:05
4. Add the maple syrup, a pinch of salt and the vanilla and blend once more. Eat straight away, or freeze in a container for up to 3 months and soften before scooping. 2:31

> **Tip** Freeze the bananas 4–6 hours ahead (not included in the time), in a single layer so they don't stick together. Blend in a scoop of protein powder and a splash more milk for a post-workout treat.

The method is a summary in our words — the video shows every step.
