Blended cottage cheese sweetened with allulose: about 14 g protein and 5 g net carbs a scoop, with no added sugar.

Diet notes: Low carb (5.2 g net carbs) but not keto: 40% of the energy is from fat, and keto meals get about 60% or more.

Ingredients 4 · MAKES 4 × 1 SCOOP (½ CUP)

- [ ] 16 oz full-fat (4%) small-curd cottage cheese
- [ ] ½ tsp **vanilla extract**
- [ ] ⅓ cup (just under 6 tbsp) **allulose**
- [ ] ¼ cup **unsweetened cocoa powder**

Amounts in US units, converted from the cook's and rounded — the video has the originals.

Contains: Milk. Check labels on stock, sauces and spice mixes.

Method TIMES = THE MOMENT IN THE VIDEO

1. Tip the full-fat cottage cheese into a food processor (a blender or stick blender also works). Keep the tub to freeze the ice cream in. 2:28
2. Add the vanilla, which softens the salty tang of the cottage cheese. 3:05
3. Add the allulose and the cocoa powder. 3:19
4. Pulse a few times, then run for about 1½ minutes. Scrape down the sides and blend a few seconds more until completely smooth. 4:05
5. Spoon it back into the tub (or a loaf pan for a double batch) and freeze for about 2 hours, stirring every 30 minutes for a smoother texture. 5:14
6. Scoop and serve. If it has frozen hard (after several hours or overnight), leave it on the counter for about 10 minutes first. 13:00

> **Tip** Servings are our estimate (the 16 oz tub makes about 2 cups). Pick the lowest-carb full-fat cottage cheese you can find; erythritol or stevia also work.

The method is a summary in our words — the video shows every step.

One portion, 1 scoop (½ cup), gives you 1 OF 4 · ESTIMATE

ENERGY	PROTEIN	CARBOHYDRATE	FIBRE	FAT	SODIUM
125 kcal	14 g	7 g	1.7 g	5.6 g	360 mg
520 kJ	27% of a day	5.2 g net · 3.2 g sugars	6% of a day	2.4 g saturated	16% of a day
		3% of a day		7% of a day	

Energy from net carbs 16% · protein 44% · fat 40% — low carb (under 26% of the energy from carbs)

High in (20%+ of a day) Selenium 21% · Vitamin B12 20%
