## Method TIMES = THE MOMENT IN THE VIDEO

1. Rinse the quinoa well in a fine sieve. Put it in a pan with just under twice its volume of water and a pinch of salt, bring to the boil, then simmer for 12 minutes until the water is absorbed. 1:21
2. While it cooks, make the dressing in a large bowl: press in the garlic and let it sit a minute, then add the lime juice, cumin, cayenne and salt and whisk in the olive oil. 2:23
3. Dice the bell pepper about the size of a bean, slice the white and light green parts of the spring onions and roughly chop the coriander. 4:07
4. Add the warm quinoa, drained black beans and vegetables to the dressing and toss well so the warm grains soak up the flavour. Taste and add more salt if needed. 7:31
5. Serve warm, at room temperature or chilled; it tastes even better after a few hours in the fridge.

> **Tip** Serves 4 as a main (our estimate); the cook's printable recipe uses 1 can of beans and makes 10 side servings. Keeps 4–5 days in the fridge, so it makes great packed lunches.

The method is a summary in our words — the video shows every step.
