A crunchy, tangy relish of cabbage, carrot, onion and jalapeño, soured by fermentation with no sugar or vinegar: about 20 kcal and nearly 2 g fibre a ½-cup serve. It is salty (about 450 mg sodium a serve).

**Diet notes:** Low carb (2.9 g net carbs) but not keto: 4% of the energy is from fat, and keto meals get about 60% or more.

## Ingredients

7 · MAKES 48 × ½ CUP (70 G)

- [ ] 5–6 lb **green cabbage** (2 heads), cored and thinly sliced
- [ ] 7–10 **carrots**, shredded (4 cups)
- [ ] 6 **jalapeños**, thinly sliced (seeded for less heat)
- [ ] 2 medium **onions**, thinly sliced
- [ ] 3 tbsp **sea salt** (not iodised)
- [ ] 2 tbsp **dried oregano**
- [ ] 1 tsp **ground cumin**

Amounts in US units, converted from the cook's and rounded — the video has the originals.

**Contains:** none of the common allergens in the listed ingredients. Check labels on stock, sauces and spice mixes.

## Method

TIMES = THE MOMENT IN THE VIDEO

1. Pull off any limp outer cabbage leaves, halve the heads, cut out the cores and slice thinly. Toss in a large bowl with the shredded carrots and thinly sliced jalapeños and onions. 0:59
2. Sprinkle over the 3 tbsp salt and massage it in with your hands for 5–8 minutes until the vegetables soften, shrink and release plenty of juice. Mix in the oregano and cumin. 2:48
3. Pack into a crock or large jar a handful at a time, pressing down hard with your fist until the juices rise over the top. If there isn't enough juice to cover, add a little water. 3:30
4. Weigh it down (a fermentation weight, or a jar filled with water) so everything stays under the juice, and cover with a loose lid or cheesecloth — never a tight lid. 4:22
5. Leave in a cool, dark place for 3–8 days (longer in winter), tasting from day 3 and checking it stays covered. When tangy enough, pack into jars under its juices and refrigerate. 4:44

> **Tip** Makes about 7½ lb, roughly 48 half-cup serves (our estimate) — halve everything for a smaller jar. Serve with pupusas, tacos, eggs, sandwiches or soup.
