Method

TIMES = THE MOMENT IN THE VIDEO

1. Heat the oven to 135°C. Break the coconut open and weigh out 150 g of the white meat. 2:07
2. Put the coconut, baker's chocolate, protein powder, butter, cream, water and liquid stevia in a food processor and process until combined. Scrape down the sides and process again until even. 3:01
3. Divide the mixture evenly between 6 bar moulds (or shape 6 bars on baking paper), pressing it in firmly. 5:37
4. Bake 15 minutes, just to melt the chocolate through the coconut. 6:20
5. Cool, then refrigerate about 1 hour until hard. Store in the fridge. 6:53

> **Tip** For a sweeter, rounder taste, the cooks also like 18 g erythritol with only 30 drops of stevia. Keeps up to 3 weeks in the fridge.
