Method TIMES = THE MOMENT IN THE VIDEO

1. Stir the almond flour, cinnamon and Swerve together, then mix in the melted butter. Press evenly over the base and halfway up the sides of a 9–10 inch springform pan, leaving no gaps, and chill 20 minutes to firm up. 0:35
2. Heat the oven to 300°F. Beat the softened cream cheese until smooth. 2:57
3. Beat in the eggs one at a time, scraping down the bowl, then the vanilla. Add the powdered Swerve a third at a time, then the sour cream, and beat just until smooth. 3:27
4. Pour the filling into the crust and level the top. Bake about 1 hour (no water bath), checking from 50 minutes: the centre should still jiggle a little. 5:57
5. Turn the oven off, open the door and leave the cheesecake inside about an hour, then refrigerate overnight to set. Serve topped with sliced strawberries and a dusting of powdered Swerve if you like. 6:54

> **Tip** Time excludes the overnight chill. Slices are large (12 per cake); cut 16 for smaller portions. Freezes well in slices.

The method is a summary in our words — the video shows every step.
