Method TIMES = THE MOMENT IN THE VIDEO

1. Heat a wok over medium heat and add about ½ cup of the coconut cream. When it bubbles at the edges, add the bruised lemongrass, galangal and torn lime leaves. 0:24
2. Stir in the green curry paste and fry until fragrant and the oil starts to separate from the paste. 1:04
3. Add the eggplant, mushrooms, zucchini and broccoli and toss until coated in the paste. 1:18
4. Pour in the rest of the coconut cream, then the coconut milk for a thinner curry. Season with the salt and a few drops of stevia, cover and simmer until the vegetables are tender. 1:43
5. Add a couple more torn lime leaves near the end, turn off the heat and stir in the Thai basil. Lift out the lemongrass before serving. 2:33

> **Tip** Serve over cauliflower rice to keep it keto. It is very rich in coconut fat, so keep portions modest. Add chicken, fish or prawns if you eat them, as the cook suggests.

The method is a summary in our words — the video shows every step.
