Pork belly simmered with aromatics and eaten with kimchi: under 1 g net carbs and about 35 g protein a serve, over 80% of the energy from fat, and rich in vitamin B12 and selenium.

Diet notes: Keto (0.8 g net carbs a serve); Gluten-free with a swap: Doenjang and soju are only in the boiling water; use a gluten-free doenjang if you are very sensitive.

Ingredients 13 · SERVES 4

Method TIMES = THE MOMENT IN THE VIDEO

1. Bring 1.7 L of water to the boil and add the onion, radish, ginger, scallions and garlic. 0:11
2. Add the pork belly, making sure it is under the water, then the bay leaves, peppercorns, salt, doenjang, coffee and soju. 0:40
3. Boil on high heat for 10 minutes, then turn to medium-high and cook for about 50 minutes more, until a skewer slides into the thickest part easily. 2:19
4. While it cooks, stir 1 tbsp salt into 1.2 L of cold water. Lift the cooked pork out of the pot (the broth and aromatics are discarded), plunge it into this bath for 30–60 seconds, then lift it out. 3:38
5. Slice the pork thickly and serve warm with kimchi. Leftovers can be wrapped in portions and chilled or frozen. 5:27

> **Tip** The cook eats it on its own with kimchi as a keto meal. Nutrition is for the raw belly: fat that melts into the boiling water isn't subtracted. Wrap leftovers in portions and chill or freeze; slice and warm through to serve.

The method is a summary in our words — the video shows every step.
