Miso-Marinated Baked Salmon

85 min · Serves 2 · 453 kcal a serve · Video 5:27 · Just One Cookbook

Each serve gives about 43 g of protein, more than two days' omega-3 and B12 and a full day's vitamin D from the salmon. The flavour comes from miso rather than a sugary glaze: about 5 g of sugars a serve, mostly from the mirin.

Diet notes: Gluten-free with a swap: Use tamari instead of soy sauce and a rice or soybean miso with no barley or wheat.

Method TIMES = THE MOMENT IN THE VIDEO

1. Run your fingers along the salmon flesh and pull out any pin bones; scrape the skin with the back of a knife to remove stray scales. Cut into two portions. 0:44
2. Whisk the miso, sake, mirin, soy sauce and sesame oil into a smooth marinade. 0:12
3. Spoon the marinade over the salmon, coating the flesh and skin, then cover and refrigerate for 1–2 hours. 1:30
4. Heat the oven to 425°F. Scrape off the excess marinade so it does not burn, and place the salmon skin-side down on a parchment-lined tray. 2:23
5. Bake for about 18–20 minutes, depending on thickness, until the thickest part reaches 126–129°F (an oven probe helps). For a charred top, finish under a hot grill for about 3 minutes. 2:47
6. Sprinkle with sesame seeds and chopped green onion and serve with rice. 4:34

> **Tip** Marinate 1–2 hours (up to 3 for thick fillets) but not overnight. Nami serves it with ginger rice and miso soup. Trout or other firm fish work with the same marinade.

The method is a summary in our words — the video shows every step.
